

Errata

The following corrections may be observed in the articles listed below:

Young, P., J.R.S. Arch and M. Ashwell, Brown adipose tissue in the parametrial fat pad of the mouse (1984) FEBS Letters 167, 10–14.

page 12, table 2 *should read*:

Table 2

Effect of cold acclimation of the uncoupling protein (M_r 32 000) content of parametrial and interscapular adipose tissue as measured from polyacrylamide gels and by specific radioimmunoassay

Acclimation temperature (°C)	Adipose tissue type	Proportion of M_r 32 000 protein (%)	Uncoupling protein by radioimmunoassay (μ g/mg mitochondrial protein)
23	Parametrial	Brown	100.0 \pm 4.7 (6)
4	Parametrial	Brown	153.7 \pm 11.5 (6) ^a
23	Parametrial	White	100.0 \pm 2.8 (6)
4	Parametrial	White	93.4 \pm 5.3 (6)
23	Interscapular	Brown	100.0 \pm 4.1 (6)
4	Interscapular	Brown	152.3 \pm 8.4 (6) ^b

^a p < 0.01, ^b p < 0.001

Results are the means \pm SE of the number of observations shown in parentheses. Statistical comparison using an unpaired *t*-test compares the same tissue at the two temperatures

instead of:
